# JEM-238MFC

## Ultra-Low-Profile MUOS UHF SATCOM Antenna ENGINEERIN

#### **DESCRIPTION**

The JEM-238MFC is a state-of-the-art low-profile antenna designed for 1.25" cavity depth mounting.

It is capable of high input power and efficiency. The breakthrough technology included in this antenna is called a Magnetic Flux Channel (MFC) antenna which is designed using high hesitivity, low-loss material.

This groundbreaking antenna technology was developed on SBIR technology (N112-113) and provides exceptional UHF UFO/MUOS capabilities in a 1-1/4" thick low-profile form-factor.

The antenna can be equipped with clamps or flanges for your application.
